6 New keeper slip – must be given to the new keeper

V5C-0720

Do not send this slip to DVLA on its own – you won't get a V5C.

You, the new keeper, must ensure the vehicle is taxed before you drive it.

You will be fined if our records show that the vehicle is not taxed, insured or no Statutory Off Road Notification (SORN) has been made.

It's quick and simple to tax online at: **gov.uk/vehicle-tax** or tax at a Post Office® using this slip.

Declare the vehicle off road online at: **gov.uk/make-a-sorn**

You should receive your new V5C within 4 weeks of the registered keeper giving us your details.

If you do not receive your V5C, you'll need to fill in a V62 form to apply for a new one. Send it, with this slip, to DVLA, Swansea, SA99 1DD. Make sure the date of sale/transfer box is filled in.

For more details on this vehicle go to: **gov.uk/get-vehicle-information-from-dvla**

For data protection information go to: **gov.uk/dvla/privacy-policy**

What happens next for you?

- we will send you (the previous keeper) a disposal acknowledgement letter.
- we will automatically issue a refund for any full remaining months of vehicle tax and cancel any direct debit (DD).
- both the disposal acknowledgement letter and refund will be sent to the address on the V5C registration certificate (logbook).
- if you do not receive either within 4-6 weeks, please contact DVLA customer enquiries as you could still be liable for the vehicle.
- you may want to take a print of this summary for your records.

What happens next for the new keeper?

- since 1st October 2014 vehicle tax can no longer be transferred as part of the sale, so the new keeper must tax the vehicle if they want to use it on the road.
- within 5 working days we will send a new V5C registration certificate (logbook) to the new keeper.
- if they do not receive a new V5C registration certificate (logbook) in 2 weeks they must contact DVLA customer enquiries.

Registration Document

VX302

This document is issued under the Road Vehicles (Registration and Licensing) Regulations, and contains the registration and licensing particulars of the vehicle to which it refers (page 3); the name and address of the registered keeper (page 7); and the name and address of the Local Vehicle Licensing Office with which the vehicle is registered (page 8).

Registration

The keeper of the vehicle is the person by whom it is used or kept. The Registered Keeper is not necessarily the legal owner.

Any change affecting the registration records, eg a change of keeper or address or of any particulars of the vehicle shown on page 3, must be reported immediately it occurs to the Local Vehicle Licensing Office (LVLO) shown on page 8. Any change in use which may affect the taxation class (eg when a dual purpose vehicle used for private purpose begins to include trade or business goods) must also be reported. Change of address should be entered in the next issue on page 7 and the document sent to the LVLO shown on page 8. Other changes should be notified on form V10. Application for a Vehicle Licence, obtainable from Post Offices and licensing offices. This form should be sent or taken to the LVLO shown on page 8.

If the vehicle is scrapped the date of scrapping must be notified immediately to the LVLO shown on page 8 and the registration document returned to that office.

If this document is lost the LVLO should be informed immediately. A duplicate registration document may be applied for on form V19 (Application for a Duplicate Registration Document).

Production of Registration Document

5 Police officers and certain officers of the Department of the Environment may require the Registration Document to be produced for inspection at any reasonable time. The document should not be kept in the vehicle or on the person of the driver (except when the vehicle is taken abroad).

6 When the vehicle is taken abroad.

a on a temporary visit the Registration Document should be kept readily available for inspection by the Customs Officer when leaving the country and on returning;

b permanently, the registration document should be kept readily available for inspection by the Customs Officer at the port. After Customs clearance page 4 should be completed to show particulars of the keeper of the vehicle and the actual date the vehicle is exported, and this tear-off part returned to the LVLO shown on page 8.

Licensing

7 A current licence must be displayed when the vehicle is used or parked on a public road. A road by a verge may be part of a public road.

8 An application for a licence must be made on form V10. Application forms are obtainable from Post Offices.

9 A refund of duty may be obtained for a licence – this is available as a refund of the unexpired portion of the licence disc.

Exemption from Duty

10 Although a vehicle purchased by an overseas resident may be exempt from vehicle excise duty, a current disc indicating that it is exempt from duty must be displayed.

Insurance

11 It is a serious offence to drive without proper insurance: before you drive any motor vehicle on the road you should check that you have cover for death and injury caused to any third parties including passengers.

Any person finding this document should hand it in at a Local Vehicle Licensing Office or Police Station.
